Dear Mr Cohen:

Having received and read the copy of your half cent book which I ordered from you a few weeks ago, I find it an excellent source of both general and technical material concerning the half cent series.

A question has arisen in my mind concerning the rarity of some of the scarcer varieties. A number of dealer price lists and auction catalogs have been using your rarity numbers in describing their offerings. Presumably as some of the rarer varieties (i.e. R-6, R-7, and R-8's) are publicized, their rarity (and possibly also their price and value) should decline. I would be interested in knowing if you or anyone else that you may know about has attempted to revise your (1971) rarity listings for these rarer varieties. Any information that you might have and would be willing to share would be of interested to me.

Sincerely,
Jim McGuigan.

Dear Mr. McGregor

Yes, there are changes in the Ranks of Half Cents and all of it documented. Since I published my book, through the efforts of other collectors and myself a good bit of information has been brought up.

If you will refer to my book for Ranks 1 through 3 there are NO AMOUNTS Mentioned and for Ranks 4 through 7 the amounts are ESTIMATED Numbers of a Coin known to exist. I have estimated a R-7 and I know the current location of 18 specimens it can rate to R-7.

Therefore and the World has a few things that all are the same as pulled except:

1794	Cmm #4	R-3	
1794	Cmm #5	R-4	
1804	Cmm #2	R-7	4 Known
1804	Cmm #5	R-4	
1804	Cmm #7	R-5	35 Specimens Known
1805	Cmm #2	R-6	19 Specimens Known
1805	Cmm #3	R-5	36 Specimens Known
1826	Cmm #2	R-4	
1809	Cmm #2	R-3	
1825	Cmm #1	R-3	

The following show that 6-7 have the following Number of Specimen Known and Could Conceivably Exist in Nature

1795	Cmm 6-6	9 Known
1848	Cmm 6-7	10 Known
1869	Cmm 6-7	11 Known

From the above it should be evident that no Change will be Coming. Rarity can only remain downward unless known specimen are destroyed.

What are you Collecting? and do you have any Half Cents? I have several, Sellers all the Varieties listed in My Book and am in the almost impossible task of upgrading the Collection

It was Nice to hear from you

Sincerely
Roger S Cohen Jr.

June 5, 1973

Dear Roger:

Thank you for the quick response to my letter inquiring about the dentils in certain of the half cent varieties. I have noted them in my copy of your book and will keep the information I have in future readings.

My main interest in the half cent series is to complete a date set in "nice" VF, EF, and AU condition, along with as many odd dates/varieties as possible in these grades. I am not particularly interested in obtaining all the varieties. Certain coins, such as 1793, 1797 Lettered Edge, and 1796, I will accept in Fine or VG if the piece really turns me on. By "nice" I mean coins with very attractive surfaces, rims, color, etc.

My biggest "find" to date was an 1808/7 C-1 which I purchased several years ago at a Stack's auction as "VF-EF". When I received it, it was with all specimens being in low grades of condition. As you can see from the enclosed coloring, the coin is a nice VF (as I grade by my standards). It has rich color surfaces and rims. (Note: The pressing was done by John Wright at the Institute. I don't know how the job worked. John suggested that I send a pressing to you for your census records). Based on the information in your book, it appears to be

the finest paper copy.

The only other non-U.S. coins in my collection are an 1868 CMM-6 which grades at least VF-20 with lustrous chocolate brown surfaces and an 1804 cent which grades about VG-8 with the bulging of the reverse die prominent. Most of my other coins are Bank notes ranging from F-15 to Mint. I also collect large cents and Type dollars.

I try to make it to as many of the larger coin shows in the east and midwest as possible. If you have any better grade duplicates for sale, I obviously would be interested in possibly purchasing once I need for my collection.

Regards,

Jim McGeorge

Dear Jim,

I enjoyed talking to you last Saturday and in spite of what I said about sending you a list I think it will be easier to send you some coins I am also enclosing $5- so you can return them to me or if the proposed trade is worked you can make shipment.

What I propose is to trade you $1500- worth of the coins I am enclosing or a similar amount of cash or combination there of. for the 1808 CMM #1 which you sent me a Pressing of.

To make this clearer. if the coins you want total $1300- I will pay you 200- Cash in addition. If you want 1800- worth of the Coins I am enclosing send me the 1808 CMM #1 and 300- plus the ones you didn't select. If you want to pass on this proposed trade just return the coins I have sent you.

While the Coins should speak for themselves I will comment on some of them:

1793 CNN#2 @ 1000 This is the Plate Coin from My book. Which I sold to Roy Chatham Who's Bill Smith Has on his Current list. I Got it from him today so I Could send it to You. I will Pay him $1000 for it if you take it.

1793 CNN#2 @ 600 The Coin you Want a lesser example I have included it.

1794 CNN#9 @ 150 This is the best 1794 I Have at this time

1795 CNN#6a @ 400 This Coin was in Roy Munde's Collection. The Obverse is Weak Which is Normal for this No Pole Variety.

1797 CNN#3b @ 525 - This is believe it or Not one of the better specimens of this Variety Which usually is in Condition 1 to 5.

1800 CNN#1 @ 175 - This is the usual UNC Which is listed by dealers. I do Not Consider it that I have listed it as a AUNC 55

1811 CNN#1 @ 175 -

1811 CNN#2 @ 375 This is My Plate Coin and is one of the 10 best of the Variety Which is usually on a Corroded Planchet.

1811 CNN#2 @ 200 - This Coin is Unusual in that the Planchet is ~~of~~ Not Corraded.

Dear Roger:

I think I indicated to you my reasons for not accepting your offer on the 1794 set during our conversation Saturday. Over 2 years after I had acquired 1793 and 1795 half cents. While still interested in picking up additional varieties of these years, my main interest at the present time is acquiring a nice 1796 for my date set. I hope to pick up a trade (+ or - some cash) on rare date or choice condition half cent or large cent such as a 1796 LH, 1793 Wreath, Lib., or Chain cent, 1795 cent, etc. for my 1794 coin. I am reluctant to part with the coin on a straight cash deal.

In addition to the coins you sent to me, I am enclosing two others. One is the 1808 coin which you wish to photograph. The other is a low grade 1793 (which I recently purchased in order to sell it to another ANE member who had expressed an interest in the coin). I would be interested in your comments concerning the cause of the damage on the reverse. It looks like a pre-striking planchet defect to me (note the beaded border is defaced on the obverse area) although I am not sure.

Finally, while I'm not sure it is ever appropriate, I am enclosing the $5 you sent me for postage. Postage was, long ago, the

appraise at high to low grade, purchase of part or coin(s) & proper realized profit are a necessary part of making wise coin buying and selling decisions. Seeing the coins you sent to me here will help me make more intelligent purchasing decisions in the future.

Thank you for your offer and please excuse the delay that occurred in responding due to the mix-up at the post office.

Regards,
Jim McGuigan

Dear Jim,

Your coins are still with me. When do you want them returned? The reason I ask is that the photo's of the 1808 were not satisfactory so they going to have to be done over. Meanwhile on Saturday 7/28 I leave for a 1 week vacation and I can't get the photo's shot again untill after I return on August 3. If you want the coins back at once call me (Collect) on 301-652-6316 by Saturday 7/28 at 11 AM and I will send them off at once.

The 1793 Cmm#4 is a typical example of a laminated planchet I have noticed this on the Varieties more than anyother one. There was one in the Stacks sale of February 1972 (Pictured) I have still another one with the same type laminations. The coins all ring like electrotypes but I believe they are genuine without any doubt.

What have the results been on your ad in Penny Wise?

Sincerely
Roger

Dear Roger

I don't know whether Jack Beymer was handing me a line or what but as you can see from the attached invoice he indicated that you were interested in his 1797 G-2. I have decided to part w the coin and am returning it to him tomorrow. Therefore if you are interested in the coin, you may want to contact him. (It did buy the 1804 G-11 and 1810 at B&L from me also).

Thank you for returning my 1793 and 1 piece of my 1966 S-1.

	This coin is struck over a large cent planchet — part of the reverse design is visible on the reverse of ½¢. This is known as the Low-Head variety - and is quite scarce above F. Jim, I dont know if you are familiar with Roger Cohen, Bethesda Md. author of a recent half cent book — well Roger was visiting out here and made a special trip to Santa Rosa to try and buy this coin we were holding for you. It is the best one of this variety he has been able to find.

Dear Jim,

Yes I did visit Jack Beymers Shop in Santa Rosa Calif on August 1. I took a Weeks Vacation and flew out to San Francisco to See My Daughter and Sister both who live there Santa Rosa is about 40 Mile North of San Francisco When My duties around I always make it a Point to stop in Coin Shops. I had seen Beymers ad in Coin World the week before and noted the 1797 6-2 So Naturally I asked to see it when I was there. He said it was sold ~~and~~ but he hadn't shipped it so I examined it. I was the one who Pointed out that the large cent undertype was Visible. While I was in the store another EAC Member (Dal Bland) Who I know dropped by so the Beymer was able to find out Who I was. I much Prefer to be unknown. What I told Beymer was that it was one of the better specimens I had seen and that the specimen in My Collection was Not in as Good Condition. Mine is a VF-25 With No undertype showing. I know of about 7 specimens Which are in Higher Condition But remember I haven't seen them all I stated this but as usual No one heard it! Perhaps she had things for Me to do is go to Coin shows + Shops With an alias

I wonder how much more Salesmanship is going to use me.

Will I'll see you in Boston I'll check in with Fuzzie so we can get to see each other

Dear Roger:

I was told that you have copies of your book for sale at $9 when bought in quantities of 5 or more. Jon Lusk and I would like to split an order for 6 (for sale at shows we do). A check for $54 is enclosed. If postage is extra, let me know and I will send it to you.

I have picked up a couple of new varieties about which I would like some additional information:

1831 Original VF25-30 — I would like to find out if this specimen has a pedigree or if it is a new, unrecorded example. The color is olive-reddish-brown. One identifying mark is a small 1-2 mm. scratch in the left obverse field between the neck and the stars.

1806 C-2 I picked up two specimens recently — one with a <u>die crack</u> over ICA and another one with a <u>rim cud</u> over ICA. I would like to know the condition census of the various known die states of this variety.

Thank you.

Best regards,

Dear Jim,

Your books were mailed today and should arrive in a few days. I'm enclosing the census on the 1831 Non-Proof I have record of. 8 Specimen as follows.

EF-40 RSC Collection

VF-20 COGAN Collection

EF-45 Last reported at M Sorbie Sale 7/68

VF-20 Presently in Hands of West VA Collector who wishes to remain unknown

VF-20 Last Reported 3/75 in Hands of Julian Leidman for resale.

VF 30 Tellenhorst Collection

UNC? Reported in 1/73 Kagin Sale.

VF-20 Kaplan Collection.

Where you gets the 1 don't know from your description. Perhaps if I knew where you got it I could tell you more. My specimen came from the Atwater Collection (1946) However I didn't acquire it until 1972. I have also owned the VF-20 in the West VA. Collection & got it at a Stack Sale in 1972. Many of these five listed have a History that is fairly long.

On your 1806 CMM #3 I had heard that your Reed found 2 of them at one Show. Needless to say that did it & I have Records of 13 Specimen As to its on R-6. I'll list on the Next Page the

	LAST RECORDED OWNER	WHEN	CONDITION	BROKEN BEHIND CUD	Remarks

Dear Roger:

Thanks for the information concerning the 1821 & 1806 C-3 you sent me. Let me add a few pieces of information concerning the coins.

1821 - The VF20 coin listed as being in the Kaplan collection may be (??) the EF45 coin in the 6/76 Heritage sale. Dave Kaplan (of Flushing, N.Y.) indicated to me that he purchased his coin for either $1250 (I don't remember which figure it was) at a Heritage sale several years ago. I also assume that you know of the Miles coin which was most recently purchased by Paramount. My coin came from Shore's Heights Coin Shop at the Penn-Ohio show last fall in Philadelphia.

1806 C-3 My two coins grade as follows: (1) with reverse crack - VF7 (7/8), (2) with reverse border break - G4 (3/5 - quite strong, beautiful work). Coin #2 (Heaton Gr-4) is now in the collection of Bob Yuell. Raymond bought (or traded) the coin from Tait & then consigned it to me. I just recently sold it to Yuell (it will appear in my Jan. F-VF sale).

Both coins came from N.P. Stutt Coin Co. - Fort Lauderdale at the Dec. 75 Washington coin show.

Other recent sales that I have obtained include (you may be aware of most of these):

1794 C-3a F15 Ex. Coins (Dearborn, Mich.) at the July 75 Cleveland, Ohio show. (over)

1804 C-4 VF25 Key Prices (2nd coin) at the Dec. 75 Washington show.

1804 C-7 VG8/10 (with break from rim of #1 to I in AMERICA.) Key Prices

1802 C-2 G/AG (with underlype strong - TAT of 5788 clearly visible on reverse). This coin is for sale at $95 if you are interested in it.

1809 C-1 (VG10/F12) - Washington Dec. 75 show.

I will bring some of these coins along with me to the Feb. 27-29 show in Washington D.C. If you would like to see any of them, stop by my table at the show.

Dear Jim,

Enclosed is the Bowlerton specimen of the 1794 6-2 (Cmn#7) Despite what the envelope says about it's condition etc. there are at least 5 in higher grades of condition. I rate the coin as a F-15 When I acquired it I labeled it with the Bowlerton plate and it is the last of my envelope the same coin. Stack kept a list of who acquired most of the Bowlerton specimens but had no record of who purchased this one. I acquired it from Tom Eatman who came across it along with the Bowlerton 1794 6-3 and 1795 6-8 at a coin show here in Jenkintown PA. (Endleman).

The goes over the 5-34 etc. I would like a 650 dollars in cash. Let me know

Sincerely
Bagley

Dear Rodger:

Enclosed is the 1794 S-124 that I described to you over the phone last evening. I bought the coin attributed last weekend at the Washington show. Because it has no major defects, I feel that the coin is more attractive than either of the coins sold in the Superior Ruby I sale.

If you are interested in the piece, send me your duplicate 1794 S-62 in Fine-Extra along with your proposed trade offer. Note: After about Dec. 18, I will be in Pittsburgh for several weeks (until Jan. 9). Please send any correspondence after Dec. 14 to: 15 Hawthorne Rd., Pittsburgh, Penna. 15221.

Best wishes for the holidays,
Jim McGuigan

Dear Roger:

At the most Unusual Store [illegible] dealer [illegible] in Washington by Ruby & Westerly for sale. If you are interested in the piece for your collection, I can get it on consignment and send it to you. The price is $250. If you would prefer a color, I would be willing to trade you the Sunset Beach print for your duplicate mug of us. We are most [illegible] that you took it the last meeting in Chicago.

My next recent acquisition was the mug with the "Tri" Sonk-Fe, Rev. Smith. I will bring it to the Washington Show in July for you to see. Also, if possible, I would like to see your collection sometime. Will call you before the show close to see if we can arrange a mutually convenient time to get together.

My summer address (from about June 20 to Sept 881) will be:

15 Hawthorne Rd.
Pittsburgh, Penna. 15221
(412) 371-2252

If you want to correspond about anything.

Best regards,
Jim McGregor

Dear Jim

Thanks for thinking of me on the S-218 but it happens to have one. It's a 5 Coin and is satisfactory for the Sheldon. as of Now.

Be glad to go over my Collection With You in July. You Mayet Plan to Spend the day before or after the show. Let me know

Dear Roger:

For one I was pleased that you could attend our half cent get together. I found the session very educational and I am sure the others did also.

In checking the list of large cent varieties that you had against my stock, I noticed that I have a coin which is on your list, so I thought I would propose a couple of possible trades for your consideration. Specifically, I would be willing to trade my 1795 Fine (priced at $195 on my last FPL) for you following duplicates:

Trade #1

1795	C-2	VG	400
1795	C-6b	VG	450
1797	C-2c	VF	600
1808	C-3	AU	220
1811	C-1	G	325
			$1995

Trade #2

1796 C-1(No Pole) (Assuming that we can agree on the trade value of this coin, I would give you the difference in each).

Trade #3

1802 C-1(1800 Rev.)

If any of these trades are of interest to you, let me know and I will send the 1795 to you for examination.

Best regards,
Jim McGrigo

Jim None of these books are of interest to me. The 8-3 is quite a common coin the first 6 here I want to part with the dated I'm just also add that the Prices I gave you were for that day only. I really don't want to part with any thing. Now. Love simplicity. It was good seeing you and el + Dolly had a great time at Jim Lusks even if we couldn't smoke

Dear [illegible]:

I have a large number of duplicates of [illegible] on the list of materials you needed (or at least, on a second list I saw). If you are interested in the rest of it, write to me. I would be willing to sell it for $.25 per card (I might be tempted to charge more for some of the [illegible] but only if you have a duplicate).

Inos C-1 [illegible]
Inos C-1 [illegible] (Back) - Duplicate)
Inos C-1 [illegible] (Back) - Duplicate)

If you would like to look at the C-1 [illegible], let me know & the next week or [illegible] I will ship it to you.

For your [illegible] card reader: The following specimens surfaced at the recent CSNS show:

Inos C-1 VF25 Dot Blank to Dot Recommended
Inos C-1 F15 [illegible] (Scratches)
Inos C-1 G-VG? Tony Terranova to J. Weidman - Rotation same direction as the Black-Eyebrow coin, but with a number of certain pit marks particularly in obverse).

Best regards,
Jim McGehee

Dear Roger:

Upon receiving the list of coins & other items regarding silver, the coin appraisals have been inserted in the rear. I failed to notice this last fall when I was looking through your box of duplicates. Since this increases the value of the coin considerably, I don't feel that the coin represents a suitable trade for the 2:19.

If you wish to keep the coins, I would prefer a loose silver coin (1878?) or one of the silver half cents (or 1853-57) listed in my last letter. If none of these possible exchanges are acceptable to you, then I would be willing to consider any alternative trades that you might wish to make.

Best regards,
Dan McGuire

Dear Pigs:

For lack of anything else to do on my vacation, I have been trying out Style (Wisconsin). I will be at the Washington Show next weekend and would be interested in seeing anything you have for sale in the dishes (if you are planning to come to the show). I still need quite a few pieces.

I recently found an issue of Pig Tales in my collection. It was all the breaks listed in your book (Big and Small through Style & Liberty) plus breaks from Mr. Liberty's head into the right ear left outside fields. I will try and remember to bring it to the Washington show.

Best regards,
Jim McGuigan

Dear Jim

Heard about your latest acquisition of the Showers. 1796 – also a written account of the 3 way Wheat match.

I am working on the Photos Now and would like to request that you send me a Coin for inclusion. If it's Not a great imposition Could you send me your 1806 #3 With the Rim break? All the collectors I've seen including my own seem to lack this. Will Put your Name by it if you desire. I have Put you down in the Reference and Acknowledgments Section already and will leave you in unless You object.

I presume that if it's OK With you Could you send me the Coin in about 2 Weeks. I will Pay registration + Postage both Ways.

Thanks.

Jim

Enclosed is Munde's Envelope which is in G Jon Hanson's Inventory.

I acquired the Coin in September 1972 for $700. I Sold it to GUTH in May 1981 as Part of a Trade, who sold to Schenkers When I closed Know-where are how much for Schenkers. My Specimen Came from the 1977 ANA Floor to Terrasovn to Bowers. I Consider it slightly better Mainly Color and Surface. The 1977 ANA Sale also had a #16 which Went to W.R Bagnoud to Bill Welker and is Carried in My Records as a F-12, A Second #16 was Purchased on the 1977 ANA floor by WKR and was Sold to Billiancia

This Coin is graded as AG-3 and I don't know who has this Coin Now.

The "54 ANA Sale - Green" Coin has Never been seen by Me I assume the "Great Black Hole" acquired it at the famous foreclosure. It's probably listed in the "Encyclopedia" Mabey You could find out. I did Not list it in My Book CC as I have No idea of its true grade - WKR once told Me it was a VG-8 on a Smooth Planchet.

That's all for Now

Think You May Enjoy the Enclosed.
